NYSH&TA members:

Today, our bill seeking to level the playing field with short-term rentals (air bnb) was introduced in the Senate. The Bill # is S5978 - TITLE....Prohibits the short-term rental of private dwellings

NYSH&TA and its lobbyist, Jackson Lewis, have worked diligently on this since the Session began, and this is a good first step toward framing the conversation on this issue going forward. This Bill was introduced by Senate Tourism Chair, Richard Funke, as he truly understands this issue and is supportive of the lodging industry's efforts.

The attached document includes Bill language, as well as the purpose, summary and justification for the legislation.

NYSH&TA is now working toward a "same as" Bill in the Assembly.

I will keep the membership updated as we move along in this process.

If you have any questions, please call me at 518-465-2300 ext 109

Regards,
Mark
